

§ 245.10

32 CFR Ch. I (7–1–08 Edition)

National Airspace System Matters,” outlines DoD/ NORAD responsibilities for the development of plans and policies in concert with the DOT, FAA and USCG for the establishment of a system for identification and emergency security control of air traffic.

§ 245.10 Scope.

This part applies to all U.S. territorial airspace and other airspace over which the FAA has air traffic control jurisdiction by international agreement.

§ 245.11 General description of the ESCAT plan.

The part defines the authorities, responsibilities, and procedures to identify and control air traffic within a specified air defense area during air defense emergencies, defense emergency, or national emergency conditions.

(a) For the purpose of this part, the appropriate military authorities are as follows:

(1) Contiguous 48 U.S. states, including Washington, DC; Alaska; and Canada—Commander NORAD or individual NORAD Region/Sector commanders.

(2) Hawaii, Guam, Wake Island, other U.S. Pacific Territories, and Pacific oceanic airspace over which FAA has air traffic control jurisdiction by international agreement—Commander, U.S. Pacific Command (USPACOM) or designated AADC.

(3) Puerto Rico and U.S. Virgin Islands—Commander, NORAD.

(b) This part provides for security control of both civil and military air traffic. It is intended to meet threat situations such as:

(1) An emergency resulting in the declaration of an Air Defense Emergency by the appropriate military authority. Under this condition, NORAD and USPACOM Commanders have authority to implement ESCAT and may consider executing this part.

(2) An adjacent Combatant Command is under attack and an Air Defense Emergency has not yet been declared. Under these conditions, NORAD and USPACOM Commanders may direct implementation of ESCAT for their own AORs individually, if airspace control measures are warranted and agreed upon by DoD/DHS/DOT.

(3) Emergency conditions exist that either threaten national security or national interests vital to the U.S., but do not warrant declaration of Defense Emergency or Air Defense Emergency. Under these conditions, NORAD and USPACOM Commanders may direct implementation of ESCAT for their own AORs individually, if airspace control measures are warranted and agreed upon by DoD/DHS/DOT.

§ 245.12 Amplifying instructions.

(a) Prior to any formal ESCAT implementation, the appropriate military authority will consult with DOT through the FAA Administrator and DHS through the TSA Administrator to discuss the air traffic management, airspace and/or security measures required. Every effort will be made to obtain the approval of the Secretary of Defense prior to ESCAT declaration, time and circumstance permitting. Any ESCAT implementation will be passed as soon as possible through the Chairman of the Joint Chiefs of Staff to the Secretary of Defense.

(b) ESCAT may be implemented in phases to facilitate a smooth transition from normal air traffic identification and control procedures to the more restrictive identification and control procedures specific to the situation.

(c) Once ESCAT is implemented, the appropriate military authority will consult regularly with DOT (through the FAA Administrator) and DHS (through the TSA Administrator) as appropriate, regarding any changes in the air traffic management, airspace, and/or security measures required.

(d) Interference with normal air traffic should be minimized.

(e) The process for implementation of measures for mitigation of hostile use of NAVAJD signals, when required, will be subject to separate agreement between DoD and other Departments and Agencies.

(f) Upon the formal declaration of ESCAT, the appropriate military authority has the final authority regarding the extent of measures necessary for successful mission completion.

(g) The rules/procedures governing Special Use Airspace (SUA) will remain

Office of the Secretary of Defense

§ 245.13

in effect until notified by the appropriate military authority. The appropriate military authority will address SUA use in the ESCAT activation message.

(h) Appropriate Combatant Commanders, in conjunction with their FAA and TSA Liaisons, will prepare supplements to this part for their area of responsibility. These supplements are to consider the special requirement of organized civil defense and disaster relief flights, agricultural and forest fire flights, border patrol flights, and other essential civil air operations so that maximum use of these flights, consistent with air defense requirements, will be made when ESCAT is in effect.

(i) Flight operations vital to national defense, as determined by appropriate military commanders, will be given priority over all other military and civil aircraft.

(j) Prior to or subsequent to the declaration of an Air Defense Emergency, Defense Emergency, or National Emergency, there may be a requirement to disperse military aircraft for their protection.

If such dispersal plans are implemented when any part of this part has been placed in effect, operations will be in accordance with the requirements of that portion of the ESCAT plan that is in effect. If any part of the ESCAT plan is ordered while dispersal is in progress, dispersal operations will be revised as required to comply with ESCAT.

(k) Direct communications are authorized between appropriate agencies and units for the purpose of coordinating and implementing the procedures in this part.

(l) To ensure implementation actions can be taken expeditiously, ESCAT tests will be conducted periodically, but at least annually in accordance with § 245.31 of this part.

(m) The area of responsibility of the appropriate military authority does not always align with ARTCC boundaries, especially in the NORAD area where one ARTCC's boundaries may lie within two or more CONUS NORAD Sectors. For NORAD and USPACOM, the FAA ARTCCs/CERAPs are aligned as follows:

Command/region/sector	ARTCC's
CONR South East Air Defense Sector (SEADS)	Atlanta, Fort Worth, Houston, Indianapolis, Jacksonville, Kansas City, Memphis, Miami, Washington, San Juan CERAP.
CONR North East Air Defense Sector (NEADS)	Boston, Chicago, Cleveland, Minneapolis, New York, Indianapolis, Kansas City, Atlanta, Memphis, Washington.
CONR Western Air Defense Sector (WADS)	Albuquerque, Denver, Los Angeles, Oakland, Salt Lake City, Seattle, Fort Worth, Houston, Kansas City, Minneapolis.
ANR (Alaskan NORAD Region)	Anchorage.
PACOM	Honolulu CERAP, Oakland, Anchorage.

(n) Commander NORAD, acting for the DoD, will process and distribute administrative and organizational changes as they occur; however, this part will be reviewed at least once every two years by DHS/TSA, DOT/FAA, and DoD and reissued or changed as required. Recommended changes should be forwarded to: Headquarters North American Air Defense Command, Commander NORAD/J3, ATTN: NJ33C, 250 Vandenberg Street, Suite B106, Peterson AFB, CO 80914-3818.

§ 245.13 Responsibilities.

(a) The NORAD and USPACOM Commanders will:

(1) Establish the military requirements for ESCAT.

(2) Implement the plan as appropriate by declaring ESCAT (including the timing and scope) within their AOR.

(3) Terminate the plan as appropriate by discontinuing ESCAT (including the timing and scope) within their AOR.

(4) Coordinate with the Secretary of Defense or his designee, the CJCS, other Combatant Commands, the Department of Transportation, the Department of Homeland Security and the Canadian Minister of National Defence, as appropriate, regarding procedures for ESCAT implementation.

(b) The DOT (through the FAA Administrator) will:

(1) Establish the necessary FAA directives/plans including special ATC procedures to implement this part.
